		• Identifying the problems that the patient suffers from through					
physical examination and finding solutions for them		physical examination and finding solutions for them					
physical examination and finding solutions for them		physical chammaton and imaing solutions for thom					
• Identifying the problems that the patient suffers from through		• Identifying the problems that the patient suffers from through					
physical examination and finding solutions for them	physical examination and finding solutions for them						

## 9. Teaching and Learning Strategies

## Strategy

Lecturers apply tests to mannequins in the laboratory, teach them what is normal from what is abnormal, and encourage students to train for examination in the laboratory.

## 10. Course Structure

Week	Hours	Required Learning	Unit or subject	Learning	Evaluation
		Outcomes	name	method	method
1 <sup>st</sup>	2	Recognize and define the steps of interview	Steps of the interview Communication skills for health assessment Establishing a nurse patient relationship	class	Attendance, Student participation &quizzes
2st	=	=	Basic assessment skills Inspection Palpation Percussion	=	=
3st	=	=	Auscultation Interpretation		
4st 5st	=	=	The Human Body in Health and Disease	=	=
6st	=		The Cardiovascular System First Exam	=	=
7st			riist Exam		
8st	=		The Digestive System	=	=
9st	=		The Lymphatic System	=	=

10st	=			
11st	=	The Musculoskeletal System		
12 st	=	The Nervous System	=	=
13st		Second exam	=	=
14st		The Respiratory System		=
15st		The Skin and hair and nail assessment	=	=
		Endocrine System, Urinary System		
		Male and Female Reproductive Systems		
		Final Exam		

	11. Course Evaluation						
	Distributing the score out of 100 according to the tasks assigned to the student such as daily preparation, daily oral, monthly, or written exams, reportsetc						
12. Learning and Teaching Resources							
Required textbooks (curricular books, if any)							
Main references (sources)							
Recommended books and references							
(scientific journals, reports)							
Electronic References, Websites
